

Director of Faith

Formation

For this first issue of Compass, I'd like to get us reflecting as a community on our logo, tag line, school and faith formation goals (below). As a school leader, I often wonder, how are we discipling students to practice living out their relationship to Jesus in all of life? Further, I often think, what simple gift can we give our graduates so each one can follow Jesus during and beyond their time at CCS?

For the past year, I've been intentionally considering if the goals below are robust enough to help us with some of the real challenges to living with Jesus as King in our world? Put as a shorter question, do these goals meet all the challenges from Covid-19 to race relations? So far, with humility I write, I think they do. So, I invite our whole community to start considering this too.

Do these school and faith formation goals help us Learn, to shape God's world as our tagline states?

Relational

Rigorous

Relevant

Rooted in the Biblical Story

Respect Diverse Opinions

Reflect God's Image
