From Alberta Education:

Dear Parents and Caregivers,

The Alberta government is currently reviewing and considering new standards for school library collections, specifically regarding materials that may not be appropriate for all children.

As a valued partner in your child's education, your input is crucial to this process. The Minister of Education and Childcare is inviting all Albertans, including parents, to share their perspectives on what is deemed acceptable for school library collections through an online survey.

This survey is open until June 6, 2025, and your responses will directly inform the development of new government standards that will ensure consistency across all school authorities in Alberta. It is estimated to take approximately 5 to 10 minutes to complete.

We encourage you to take this opportunity to share your thoughts and contribute to shaping the future of school library collections in Alberta.

You can access the survey and find further information, including the official news release, at:
